Ansgar House Update

The inaugural group of Faith Lutheran interns move into the Ansgar House at the end of August! We could not be more excited to welcome Courtney, Trevor, and Joshua! That said, there's a bit more that we need to do over at the Ansgar House before they can move in. You know what that means: WE NEED YOUR HELP!

There are three ways you can help:

Financially:

Up until now, we have been able to complete the purchase and renovating of the Ansgar House with the gifts given during the Faith Forward Campaign back in 2021. However, there are a few things left on the list that are going to exceed the funds in that account. Those items include:

- Repairing the fascia and soffits and installing gutters
- Removing a big tree in the back yard
- Installing carpet in the main-level bedrooms

All three projects need to be done, and we received some very affordable bids, but we are counting on the continuing generosity of the congregation to make it happen. **As of now, we need to raise about $5-6,000.**

Work day:

We are hosting a **work day at the Ansgar House from 9 a.m. -1 p.m. on Saturday, August 26**. We need help cleaning and polishing the house before the interns move in on August 28. We'll be cleaning kitchens and bathrooms, setting up bedrooms, doing some light projects, and other tasks. Many hands make light work, and we want the house to be a welcoming home for the interns, so come lend a hand!

Donations:

There are several more items that are still needed to make the Ansgar house a home. **You can help by donating any of the following items**:

New pillows (12)   Gently used box fans (4)

Gently used twin sheet sets (10)   New toilet plungers (2)

New twin size mattress pads (6)   New toilet brushes (2)

Gently used cooking pots (2)   Gently used frying pans (2)

Gently used full length door mirrors (2)

Gently used kitchen and bathroom garbage cans (2 each)

Gently used brooms & dustpans (2)

It's all coming together! It's so fun to see what God is doing through this congregation! Thanks in advance for your help!
