Phase II Building Project

The goal of this campaign is to complete the building of Phase II of our construction plans to provide a more accessible place to worship while meeting the current and future needs of our congregation. A Building Committee and Finance Committee have held regular meetings for nearly 3 years as we navigate the needs for this project. Faith Lutheran has a history of successful capital campaigns for building and operational needs.

FREQUENTLY ASKED QUESTIONS

What is the Capital Campaign?

The Leap of Faith Capital Campaign is a fundraising initiative to complete Phase II of our building project, providing a more accessible and sizeable worship space for our growing congregation. The 3-year campaign launched in March of 2025 and is separate from our regular operating budget.

What is the fundraising goal?

Our goal is to raise \$10,000,000 to fund the construction of Phase II fully, including the new sanctuary, fellowship hall, and accessibility improvements. In addition to the funds raised, we may or may not need to seek a loan to cover the remaining construction costs.

How can I contribute?

You can contribute by making financial offerings at the church, by mail, or online. We have options on our website for recurring and automated gifts, as well as one-time donations. All monies are safely held in interest-earning CDs at federally insured institutions.

What does Phase II include?

Phase II includes a larger sanctuary on ground level, a large multi-purpose fellowship space with a kitchen, improved accessibility, and additional classrooms. Final design plans and finishes will not be selected until the project is near construction.

When will construction begin?

Construction will only begin when we get to a financial point that we can re-engage the architect, have ability to borrow the remaining portion for the construction, and receive approval at special congregational meetings. Updates will be shared through church communications and at faithlc.com.

How many households are participating?

Over 216 households have pledged their support and/or given financially to the campaign. We encourage every family (member or non-member) to consider prayerfully how they can contribute to this vision.
